Technical data

Material:

Heater: Aluminium

Clamping band: stainless steel

Wall thickness:

~ 7 mm

Operating temperature:

Up to 450°C*

*measured at the surface of the heated side

Operating voltage:

230–250 V

others on request

Surface load:

Up to 7,5 W/cm²

Dimension:

Min. diameter: 30mm, width: 30mm

Construction:

One piece construction - slide on execution, with connection cap and clamping devices

- New heating conception
- Melt resistant construction
- Aluminium body protects the heater from damage and assures even heat distribution over the surface
- Optional with integral thermocouple (L, J, K)
- Available with flat cap and wedge lock fastener, for small circumscribed circles
- Reliable, energy saving and economical product
