## Technical data

### Operating temperature:

Up to 140°C max

### Operating voltage:

3x400 Volt, 3 phase/PE 50 Hz

### Control voltage:

230 Volt with transformer

### Temperature control:

Capillary thermostat with temperature indication

### Size:

4 Standard sizes

## Fresh and/or circulated air operation

## Steel drawers

### Options:

- | Aluminium or stainless steel drawers, perforated steel respectively stainless steel bottoms
- | Electrical temperature control with power circuit breaker respectively Solid State Relay
- | Manual time switch (24h max) (also available with switch off)
- | Electrical digital time switch

- | Warm air dryer for drying and pre-heating of solvent free plastic granulates respectively annealing of moulds (by using the optional electronic temperature control)
- | Advantages:
  - | Increase of plastification
  - | Quality improvement
  - | Quality reliability
  - | Flow behaviour improvement
- | Characteristics:
  - | Robust
  - | Operates for years without problems
  - | Simple to operate
  - | Good insulation (energy saving)
  - | Silent
  - | Available in various sizes
  - | Price economic
