Statement on the current situation Ukraine/Russia

Dear Sir or Madam,

The current situation of the Ukraine-Russia conflict confronts all internationally operating companies with particular challenges.

Especially with regard to the related supply chains, we would like to take this opportunity to inform you at an early stage.

Herewith we can confirm that the hotset-group has no own production facilities or direct suppliers/service providers in the crisis area and can assume a functioning supply chain as of today.

At the moment we can state that no bottlenecks in the supply due to the conflict are recognizable.

We will inform you accordingly in the event of any changes regarding this issue.

Best regards

Hotset GmbH

Ralf Schwarzkopf
CEO
